Ear and hearing care interventions are cost-effective.

Hearing loss is expensive to communities and costs the region US$ 262 billion annually.

An annual additional investment of less than US$ 1.10 per person is needed to provide ear and hearing care services.

Over a 10-year period, this promises a return of nearly US$ 32 for every US dollar invested.

The majority of people with hearing loss do not have access to interventions.

Ear and hearing care interventions are cost-effective.
